

# Direct Democracy Party of Canada Condemns Mass Genocide in Palestine

***-Partap Dua, Leader of party***

I am voicing majority opinion of our party members through this release. Although our party does not believe in taking positions or force individuals to a particular opinion as other parties do, I felt the need to express it openly as I felt ashamed to be standing on wrong side of truth as a silent observer. Our future generations will not forgive us as Canadians who supported genocide.

I am ashamed of leaders of the 3 major parties as well as at other political parties who have stood on wrong side of history as mere spectators.

Palestinians are Equal citizens and equal humans on this planet, and they have a right to self determination and to have their own independent nation. They have been tortured and coerced for almost 80 years by the world powers who have stood as mute spectators. And I specifically say this about the United States and its puppet state Canada. This has brought lot of embarrassment to Canada across the world because we as a nation of peace, have chosen to support US policies.

I had been personally advised by certain members of my own party to stand on sidelines and not comment. When I published my first article against Canada supporting corrupt regime in Ukraine, many people backlashed at me, mostly Canadian Ukrainians. Now you can all see where all this has led to: *a never-ending war where innocent lives are lost everyday in the game played by the western nations*. I have always stood against wrong, and I hate at being politically correct, a typical Canadian trait. Any leader trying to stand mute can never lead people and this I am saying of people like Justin Trudeau, Pierre Poilievre, and Jagmeet Singh. These leaders have always played at hands of their advisers and not spoken out their own minds. We all know about Justin Trudeau and Jagmeet Singh, but I am surprised at Pierre Poilievre. Why has he so much hate for Palestinians? There must be something personal with him because I notice that most of his party membership sympathises with plight of Palestine. In fact, most Canadians, including Jews, and the whole World sympathise with Palestine people. We Canadians should all be standing for humanity.

Personally, I think all this is because of the extremely strong lobby of Israel with huge funding that has been able to sway the media across the world to cover up its massacre of innocent Palestinians. But now cracks are developing, and the truth is coming out. 35,000 Palestinians have been killed, which includes 14,000 children. Around 75,000 civilians are seriously injured/maimed. Populations of many countries are voicing against the genocide, including Canada and the US, and interestingly this includes Jewish people themselves.

Canadian politicians along with western politicians are trying to change the definition of the word genocide. The common dictionary definition of genocide is ‘the murder of a large number of people from a particular nation or ethnic group’, with the aim of destroying that nation or group. Even the United States Holocaust Memorial Museum defines Genocide as ‘an internationally recognized crime where acts are committed with the intent to destroy, in whole or in part, a national, ethnic, racial, or religious group. So does the Article II of UN Convention on the Prevention and Punishment of the Crime of Genocide defines Genocide as *any of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial, or religious group, as such:*

- a. *Killing members of the group;*
- b. *Causing serious bodily or mental harm to members of the group;*
- c. *Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part;*
- d. *Imposing measures intended to prevent births within the group;*
- e. *Forcibly transferring children of the group to another group.*

**THE RATIONALE:** We cannot hold a population responsible for acts of its government or military. And that is exactly what we are doing. Would you agree that the Police would be justified in killing all residents on a street just to catch a criminal? Or would United States be justified in levelling Toronto or Ottawa City to rubble for an act of Canadian government against the US and vice versa? If all this is ok, where is the need of courts and international law? In fact, no nation has the right to unilaterally take any action against another nation just because it is powerful or has more weaponry. If that were allowed, the world will be controlled by thugs and arrogant nations.

I fully sympathize with the loss of Israeli lives. But this is an everyday phenomenon in present world. Thousands of people are killed everyday by warring nations without the consent of their respective populations. Yet no country goes out and destroys the whole civilian population. Even countries grappling with internal disturbances don't do that. For example, if the action of Israel is allowed to be legit, then countries like India would start bombing people in Kashmir and the Punjab asking for independence. And so would Pakistan bomb Baluchistan to get rid of all Balochs fighting for their homeland. And did Canada bomb all Quebecers asking for independence? We are opening a new trend. Israel cannot bomb and massacre all Palestinians for actions of the Hamas government they elected through general elections supervised by UN observers. We just cannot mix up the fight between IDF and Hamas with civilians living in Israel and Palestine. That way many countries would be ready to destroy Canada for actions of our prime minister Justin Trudeau.

Behind all this is the global conspiracy of vested nations. The powerful nations want wars to happen and continue so that they can supply weapons to warring parties for their economic benefits. Look at how many nations have been destroyed one by one and how the wars have lingered on through decades and taken a toll on local human lives in countries like Somalia, Afghanistan, Iraq, Libya, Syria, Ukraine, Serbia/Bosnia/Croatia, Egypt/Tunisia (Arab Spring), South Sudan, Tigray crisis in Ethiopia, Kurdish conflict, and so on. Not even a single country or region has stabilized, and western nations have continued to profit. And Canada is an active participant as 5 Eye member in destabilization. Our leaders will be held accountable because things will ultimately change when the world order changes. Our leaders will also be tried for crimes against humanity as equal participants and accessories to crime. It would not be unusual that Justin Trudeau, his cabinet members and Pierre Poilievre will have difficulty travelling outside Canada for fear of being arrested for crimes against humanity.

**RELIGION AS AN INSTRUMENT:** There is word being spread about the mixed Christian-Jewish prophecies that the Jews are the chosen people and so on. I don't know who said that and I personally do not believe in any of the religious prophecies. I believe the religions are root cause of all problems. And to me these were all man made. For me humanity is the only supreme religion people should follow and we must treat all fellow beings with respect. God created everyone as equal and the world is every human's playground, now being balkanized and controlled by power hungry governments and politicians. There are still 16% or around 1.2B secular/nonreligious people today in 7.9B world population. The two dominant religions are trying to control the world- the 2.4B Christians and the 2B Muslims, and now we have the 1.16B Hindus who have woken up and are trying to assert themselves. This is all nonsense and a definitive path to destruction of human race. The Palestine issue is being made more of a fight between Christians and Muslims, which is NOT true. Most Palestinians have been extremely peaceful and nonviolent despite losing their children, parents, and family members. It is astonishing to see their resolve and faith in God. I have never seen such a population anywhere in the world that is being destroyed and they accept it lying down believing that the world would intervene. It is unbelievable. And here we are enjoying our lives with our kids. Our leaders will only understand when they lose a child of their own. Most despots finally die a miserable death or are punished: Hitler(Germany), Slobodan Milosevic, Radovan Karadzic & Radislav Krstic (all Serb leaders), Hashim Thaci (Kosovar President) Jeam Kambanda(Uganda), Pol Pot and his associates (Cambodia), Augusto Pinochet, (Chile), Fujimori(Peru) , Jean Gombo(Congo), Charles Taylor(Sierra Leone), Omar Al Bashir (Sudan), Uhuru Kenyatta(Kenya), Ben Ali and his wife(Tunisia), Laurent Gbagbo (President of Ivory coast), and so on. When the things dissipate, the countries themselves handover their leaders who instigated crimes against humanity. Western leaders should be worried for being accomplices.

I don't say that I have not heard extremes about religion from people I have interacted with. Many Christians are hardcore in their beliefs, and they will not engage in healthy discussions because they are blinded by their hardcore beliefs. I have had Muslims friends, and I was appalled at some of them for their extreme views. And strangely only those with higher degrees like Ph D and so on. Most of these educated are so deep in religion that they talk of establishing Islamic Caliphate across the world, which is the goal of ISIS. Even Osama Bin Laden never thought of that. Regular Muslims are hardworking, and peace loving and just believe in their faith. So here we are. Where should rest of 2.4B people of the world go who are not Christians, Muslims, or Hindus?

I want to point out here that none of these educated Muslims who talk about establishing Islamic Caliphate were from Palestine. Hence, we cannot equate Palestinians with violence or radical Islam. Palestine people are very humble, peaceful, and educated people with immense tolerance, who respect and love everyone else on the planet. That is displayed in their character because they don't even retaliate against their perpetrators. They have learnt to live in poverty and with fewer means. Their protests are well organized and peaceful even though many have labelled them as violent, which is False. They expect us to stand with them and protect their rights of coexistence and an independent nation.

**Canada and its leaders are standing on wrong side of history, and they will pay a very heavy price for it.**

Just ask yourself before supporting genocide: "Would you ever forgive any individual or government if they attacked and killed your innocent child?"

CANADIANS MUST SHED THEIR POLITICAL CORRECTNESS AND SPEAK OUT OPENLY BECAUSE GENOCIDE CAN HAPPEN ANYWHERE INCLUDING CANADA, LOOKING AT THE LOSS OF HUMAN RIGHTS AND DIGNITY AT THE HANDS OF POWER-HUNGRY POLITICIANS.
